

March 2009

Dear Valued Customer:

From May 1, 2009, we will commence integration of the PML business and information systems into bioMérieux and from this date, you will receive invoices and statements on bioMérieux stationary.

Since our combined product offerings have expanded significantly, there are duplicate catalog numbers for some PML and bioMérieux products. We are assigning new catalog numbers to these products. Please note that all of the remaining PML product numbers in our portfolio remain, however you will see both old and new item codes on invoices and packing slips.

To help you prepare for this change, we have attached a list of products and their new catalog numbers that must change. **Starting May 1, 2009, please use the new catalog numbers from the attached list whenever placing orders directly with PML or your distributor to ensure there is no delay in order processing.**

**For all other products, you can still order under the previous PML catalog numbers.**

Thank you for your continued support of our products and services. If you have any questions, please call our Customer Service department at 1-800-628-7014, option 2.

Sincerely,

A handwritten signature in black ink that reads "Anh T. Nguyen".

Anh T. Nguyen
